

Dr. Chandrashekhara S. H. is a ***Professor and Head*** in the Department of Diagnostic and Interventional Onco-Radiology at the Dr B. R. Ambedkar Institute Rotary Cancer Hospital (IRCH), All India Institute of Medical Sciences (AIIMS), New Delhi, He obtained his MD and DM from AIIMS, New Delhi, along with DNB and FICR qualifications. He also serves as **adjunct faculty to IIT Delhi.**

With over two decades of experience in clinical practice, teaching, research, academic writing, and technology translation, his work focuses on diagnostic and interventional onco-radiology, image-guided interventions, medical robotics, and medical devices. He has authored more than **160 indexed publications**, **40 book chapters**, and has delivered **75 conference presentations**. He is the Editor of the well known '**Textbook of Interventional Radiology"**, published by Springer International.

His major innovations include the demonstration of **long-distance telerobotic ultrasound between Delhi and Antarctica**, representing a first-of-its-kind achievement in remote robotic ultrasonography. He has **six patents granted/filed** and **one licensed/technology-transferred innovation**, and has served as Principal Investigator for several funded intramural and extramural research projects.

He has received numerous national and international awards and recognitions and has extensive experience as a journal editorial board member, peer reviewer, invited speaker, and research supervisor. His current academic interests include **interventional onco-radiology, medical robotics, telerobotic imaging, medical devices and indigenous medical technology development**.
