National Seminar

on
"Access and Availability of Medical
Literature in Electronic Environment"

Organized by

Dr. B.B. Dikshit Library
All India Institute of Medical Sciences
(AIIMS), New Delhi

Venue
Conference Hall
1st Floor, J.N. Auditorium
All India Institute of Medical Sciences
(AIIMS)
Ansari Nagar, New Delhi-110029, India
June 8, 2017 at 10:00 AM

Paradigm shift of medical literature and its scholarly communication technology transfer the role of medical library from traditional library to hybrid medical library system that helps in clinical care and research. The modern hybrid medical library faces its services in electronic environment with complication and fluid nature of content ease to conduct this seminar to make awareness of access and availability of the medical literature to the doctors, research scholars and medical librarians.

This seminar will enhance the information seeking behaviour of doctors, clinicians and researchers. Dr. B.B. Dikshit Library has rapid development of the digital collection during the last three years. The hybrid library evolved to match the standard and play a significant role in the expert retrieval and help them to make more efficient use of information. Medical libraries have direct impact on the quality of patient care by helping physicians, health professionals and clinical researchers to stay abreast of new developments in their specialty areas. This seminar also will demonstrate BBDL experience as well as point of care databases, web scale discoveries and citation management system etc.

ABOUT LIBRARY

We are organising National seminar on the occasion of Diamond jubilee celebration of Dr. B. B. Dikshit Central Library. BBDL is one of the best reference libraries in South Asia. Library provides access to resources in variety of formats ranging from traditional print to electronic sources and databases. It maintain and regularly update electronic library with new information coming in, organise workshops and trainings for clinicians, doctors and librarians and also collaborate with other institutes to get resources requires by your users which are not available in the library.

BBDL collective collection development policy yield to have huge repository of around 73,064 medical sciences reference and text books, 75,547 bound journals, 7052 thesis and access to more than 1,562 online journals from medical science field.

- Access to 1500 full text e-Journal and 136 e-Books
- Web OPAC for browsing Library Holdings.
- Single Point Search (iSearch@BBDikshit Library) for browsing e-resources accessed by BBDL.

- E-Reading Hall: Having capacity of more than 75 Readers.
- OpenAthens and RemoteXs for Remote Access.
- Access to iThenticate-anti Plagiarism Tool.
- Article on Demand Service through major publishers

Seminar Objectives

- The principal objective of this event is to provide a platform for the exchange of knowledge and skills of relevant medical literature/information search and retrieval in the electronic environment.
- Promote the latest information dissemination technology and tools among the scholarly communication system. Impart the training to doctors, scholars and medical library professionals.
