

# HOW TO REACH US?

In line with the WHO continuum of care, we align ourselves as a para-clinical service functioning strictly on a **referral based** system from within AIIMS New Delhi.

To seek services at the clinical neuropsychology (CNP) clinic under the Neurosciences Centre, patients have to first take an appointment with a primary medical doctor/consultant at Neuroscience Centre, AIIMS New Delhi who will then duly provide a relevant **referral** if required, based on their provisional diagnosis.

On receiving the referral, the patient can visit **CNC Room 718; 7th Floor, NS Centre (along with the referral)** to seek appointment for the CNP Clinic. [you can meet **Ms. Ruchi (D.E.O)** for the needful].

**The duration of Waiting:** Neuropsychology services should be noted for their time-intensive nature, which allows for only a limited number of appointments allocated per day. **Ms. Ruchi (D.E.O)** will schedule the earliest available appointment for you. In the event that you happen to visit AIIMS on any of the OPD days before your scheduled appointment, you are welcome to visit **Room No. 14 in the CNC-OPD**. Should the originally appointed patient miss their appointment, you will receive the service, and your appointment will be canceled to accommodate the next individual in line for an appointment.

DAYS	TIMINGS	ROOM
Monday	Morning	CNC-OPD Room 14
Tuesday	Morning	CNC-OPD Room 14
Wednesday	Morning	CNC-OPD Room 14
Thursday	Morning	CNC-OPD Room 14

**Please be aware that patients admitted to the wards will be given priority.**
