Annexure

In case the candidate is not found fit for promotion, the reason therefore :-

Dr. Ashima Nehra was interviewed by two external experts and the Chairman and Members of Selection committee for more than 40 minutes. Dr. Ashima Nehra's overall performance was extremely poor during the period for which she was considered and also at the time of this interview.

The candidate did not have a basic knowledge about the concepts of clinical psychology. She could not explain what cognitive retraining means. She could not answer questions on specificity and sensitivity of a test. She could not define what is meant by Bio-psycho-social model. She could not explain about the various skills required in day to day psycho social functioning of the person. She had just 2 published papers as first author. She had cited abstracts as publications. She did not know the meaning of the term correlation as used in statistics in psychology. Over all her knowledge in the core subject of clinical psychology is inadequate.
