

“Workshop on Developing Protocol for Cochrane Systematic Review for Dental Professionals”

April 26 to 28, 2017

Dear Colleagues,

As a Global alliance partner of the Cochrane Oral Health (Manchester, U.K.), the Centre for Dental Education and Research, All India Institute of Medical Sciences, New Delhi, is holding the first workshop for Dental professionals in India for training in the field of Evidence based Dentistry and decision making.

The workshop is specifically intended for Dental health professionals, researchers, academics, teachers and clinicians, willing to become actively involved in the work of the Cochrane Collaboration, willing to commit to the development of Cochrane systematic reviews as authors or peer reviewers, and to the Cochrane Oral Health activities in India. The primary objective of this 3-day workshop is to provide methodological support to potential authors of Cochrane systematic reviews, for the first time planning to develop a Cochrane systematic review, to help participants in title registration and drafting of a Cochrane systematic review protocol to submit to Cochrane Oral Health.

The workshop will be a mixture of presentations, interactions, and hands-on-sessions. **This workshop is not to be missed by Dental professionals, faculty members and researchers from any speciality. Looking forward to welcome you in person.**
