Invitation

Dear Friends

Season's Greetings to you all !!

It is our great pleasure to inform that the Department of Obstetrics and Gynaecology, AIIMS, New Delhi and Delhi Gynaecological Endoscopists Society (DGES) are organizing the Annual Conference **"ENDOFERT-2016"** under the aegis of Gynae Endocrine Society of India (GESI) from 5th to 7th August, 2016 at Jawaharlal Nehru Auditorium, AIIMS, New Delhi. This conference will focus on basic to advance endoscopy and conventional surgeries for postgraduate students and practicing gynaecologists.

There will be three pre-congress workshops on 5th August 2016. **Workshop on Endometriosis** is being organized in association with FOGSI Endometriosis Committee that will focus on recent evidence based medical & surgical management. **Workshop on basic laparoscopy** will focus on hands-on exercises on pelvitrainer and suturing, demonstrated by expert faculty.

The **1st AIIMS Cadaveric Workshop on Gynae Endoscopy (EndoCad-2016)** is designed to improve surgical skills of gynae-endoscopists to empower them to carry out gynae endoscopic procedures independently. Delegates will have an opportunity for hands on training on various gynae-surgeries on cadavers; however, **seats are limited**.

On 6th August 2016, a **Live Endoscopy Workshop** will be organized in association with FOGSI Endoscopy & Urogynaecology Committees in which there will be a plethora of Minimally Invasive Gynaecologic surgeries by a galaxy of experts. Interaction with experts will enable delegates to hone their surgical skills.

This will be followed by **Scientific Conference** on 7th August, 2016 which will focus on promotion of high standards of education and clinical practice. There will be didactic lectures, symposia, panels and keynote addresses by expert faculty. The highlight will be a **Video Festival** where invited video on rare interesting surgeries will be shown.

We welcome you for this scientific bonanza and look forward to your participation in this conference to make it a grand success.
