ADOLESCENT MENTAL HEALTH

AIIMS

ORGANISED BY
NATIONAL DRUG DEPENDENCE
TREATMENT CENTRE & DEPARTMENT OF
PSYCHIATRY, AIIMS, NEW DELHI

GREETINGS !

The National Drug Dependence Treatment Centre (NDDTC) and the Department of Psychiatry at AIIMS, New Delhi, extend a warm invitation to you for the 3rd National Mid Term CME organized by the Indian Association for Child and Adolescent Mental Health (IACAM). This year's theme, *Innovations in Interventions: Healing Minds and Nurturing Souls*, emphasizes the latest advancements in psychological and pharmacological treatments tailored for children and adolescents facing mental health challenges.

We encourage mental health professionals, clinicians, researchers, and scholars to engage in this pivotal dialogue. Your participation is vital as we collectively explore evidence-based practices that have the potential to revolutionize mental health care for young individuals.

New Delhi, a city that harmoniously blends its rich cultural heritage with modern amenities, provides an ideal setting for this significant event. The centrally located AIIMS campus not only facilitates easy access to various cultural and historical landmarks but also offers a range of accommodation options to suit all attendees.

We eagerly anticipate your presence at this conference, where we aim to foster an environment of inspiration and collaborative learning.

A heartfelt welcome from the organizing committee of the CME!

AIIMS

The All India Institute of Medical Sciences (AIIMS) in New Delhi stands as a premier institution in both the Indian and the global medical community. Established in 1956, it has consistently been ranked as the top medical college in India, holding the 1st position in various national rankings, including the National Institutional Ranking Framework. AIIMS is recognized internationally, ranking - 127th in the QS World University Rankings for Medicine in 2024, which underscores its significant contributions to medical education and research. AIIMS apart from being renowned for its academic excellence is acclaimed for its extensive research initiatives and interdisciplinary approach to healthcare. The institution is recognized as an "Institute of National Importance," reflecting its critical role in shaping healthcare policies and practices in India.

IACAM

The Indian Association for Child and Adolescent Mental Health (IACAM) was conceived in 1988 and officially established in 1990. The association organizes biennial national conference and mid-term Continuing Medical Education (CME) program, promoting continuous professional development. A significant milestone was its affiliation with the International Association for Child and Adolescent Psychiatry and Allied Professions (IACAPAP) in July 1994, which facilitated international collaboration. In 2005, IACAM launched a journal to share research insights, further enriching the field. In 2023, it partnered with UNICEF's Regional Office for South Asia to create the Child and Adolescent Mental Health South Asia Regional Network (CAMHSAN), demonstrating its commitment to regional advocacy. Additionally, the IACAM Academy offers a ten-month capacity-building program, emphasizing education and research dissemination through public lectures and workshops.

CME

The mental health of children and adolescents is increasingly becoming a global concern, exacerbated by a lack of specialized training despite efforts to raise awareness. This Continuing Medical Education (CME) program seeks to bridge this gap by offering an in-depth exploration of the complexities surrounding interventions related to mental health in children & adolescents. Participants will gain advanced knowledge of contemporary challenges and therapeutic strategies including psychological and pharmacological interventions as well as holistic care approaches. This CME equips healthcare providers with the tools to apply advanced clinical practices, sensitive to cultural and other socio-economic aspects. The program includes various intervention strategies tailored to the needs of patients. The CME will include workshops, symposiums, lectures, panel discussions, and more to ensure participants can translate theoretical knowledge into practical skills. By enhancing clinical skills and providing tailored training, this program aims to improve mental health outcomes for children and adolescents. It will empower healthcare providers to deliver comprehensive and effective care, ultimately contributing to a more informed and resilient generation.

PROGRAM HIGHLIGHTS

SCIENTIFIC PROGRAM

- Invited Lectures
- Symposia
- Panel Discussion
- Workshops
- Case Discussions

COMPETITIONS

- Poster Presentation
- Skit
- Short-video

SCIENTIFIC PROGRAM HIGHLIGHTS

Dr. Frencheska Pereplechikova
Associate Professor of Psychiatry
UMass Worcester, USA

Dr. Veena A. Satyanarayana
Dept. of Clinical Psychology
NIMHANS, Bengaluru

Dr. Nimisha Kumar
President Asian CBT Association,
India

Dr. Supriya Malik
Developmental Psychologist
eMbracae, India

Dr. Ashwani Kumar Mishra
Professor of Biostatistics
NDDTC, AIIMS, New Delhi, India
