Dear *Dr. Mishra,*

"Gratitude is the memory of the heart".

My husband Shri S. Jayaraman, IPS Retired, now deceased, was diagnosed with cancer of the sigmoid colon and rectum at the All India Institute of Medical Sciences, New Delhi while he was serving as Secretary, Internal Security, Ministry of Home Affairs, New Delhi. He underwent surgery and treatment in AIIMS from August 2013 to January 2014.

I would like to place on record the great sincerity and dedication of the team of surgeons led by Dr. Rajendra Prasad and Dr. V. Srinu of the Department of Surgery, as seen by me. They work tirelessly throughout the day and into the early hours of the morning attending to each patient with utmost care and a personal touch. Despite the huge rush of persons and several constraints, they handle their work with patience and devotion.

Similarly, the Nursing Staff of the High Dependence Unit (HDU) are to be commended for attending to each patient under their care with equal attention and compassion, meticulously attending to each one's needs.

I will always remember the AIIMS Delhi as a great Institution of this Country, where the Doctors and Nursing Staff work with dedication, sincerity and professionalism.

My gratitude and heartfelt appreciation to each of them.

With best wishes,

Yours sincerely,

Aruna Bahuguna
