GeM Availability Report and Past Transaction Summary

GeM Availability Report and past transaction summary report is generated based on the specifications searched by the Buyer. The specification may be modified appropriately for searching relevant categories on GeM. Buyer may navigate to GeM category page by clicking on the category link to view category specifications and products/services available in the category.

Order Count and Order Value displayed is on a cumulative basis since GeM inception.

1. Search String: Chemotherapy Chair

Search type: Product

1. There are categories available on GeM matching your requirements (as listed here). You can create a bid on GeM with a product closest matching your required specifications and add additional parameters in specifications through Corrigendum using RMS functionality.
2. If you feel that category TP needs updating you can submit category updating request also through RMS.
3. If you do not want to use any of the above option and want to proceed for procurement outside GeM, please suggest the specifications of the required product for creation of new category on GeM for future procurement.

Search Result: Category available/suggested on GeM but marked as "not matching requirements" by the buyer with undertaking as under:

It is certified that I have thoroughly checked all probable categories suggested by GeM and I am satisfied that the product required is not covered / does not fall in any of the suggested categories and can not be procured under any of these categories even after inclusion of List of Values(LOV) wherever possible in category specifications of suggested categories. It is also certified that the technical specification requirement are such that these can not be covered even by adding specification parameters using ATC in any of the GeM suggested categories. This is a one-time requirement hence new category creation is not proposed / or requirement is recurring but request for new category creation will be submitted separately post generation of GeMARPTS.

The Head of Department
Department of Paediatrics
All India Institute of Medical Sciences
Ansari Nagar, New Delhi – 110029.

Subject: - **Price justification of Treatment Chair.**

Dear Sir / Madam,

As per our discussion, we hereby clarify the following points:

We have supplied Treatment Chair to L.N.Hospital, New Delhi in the year of 2018 at the rate of INR 645,000.00 each plus taxes extra with 4 motors only. (Copy of the supply order is enclosed for your reference and record).

Now under this proforma we are offering Treatment Chair with 5 motors and foldable side table. In this proposal one seat height motor and side foldable table comes as extra. Also the previous supply is more than 5 years old and post that there has been significant increase in prices by the supplier along with increase in freight charges and exchange rates of foreign currency as well.

We hereby confirm that the price quoted to you are reasonable and genuine.

Hope you will find the above in order and we will receive your valuable orders.

Thanking you,

Truly yours,
For Rustagi Medisurg

COMFORT-4 ECO THERAPY CHAIR

WITH VARIABLE HEIGHT

Electronic adjustments

Multiple independent adjustment possibilities offer maximum patient comfort, plus a reduction in work for staff. (4+1 motors)

- backrest
- seat tilt
- legrest
- seat height
- footrest (optional)

Tilt-up armrest

The solid upholstered armrest makes it possible to achieve the most suitable and restful arm position. It can be adjusted in height and entry is facilitated by simply tilting it up. The multilayered soft armrest cushion is completely sealed against liquids and ensures improved comfort.

Battery back-up (optional)

Full operation from battery in case of power failure with Audio alarm.

Footrest adjustment

The patient can adjust electrically the position of the upholstered footrest to the most suitable and relaxing position at any time.

Manual footrest adjustment is standard.

Exchangeable upholstery

Can be removed easily with a few movements for cleaning or maintenance. It has been designed according to the latest developments in orthopaedics and ergonomics.

Entry position

Electronic height adjustment and Tilt-up armrest allowing the patient to easily enter or leave the chair

Trendelenburg position

The backrest adjusting range ensures that the patient's head is lower than the circulatory centre point of the body in compliance with EN 60601 Medical Standard
