Sub: The project titled "Utility of novel coated platelets as a marker for early prognostication of neurocognitive impairment following traumatic brain injury" [D. O. No SR/CSRI/203/20]

Respected Sir,

We are so grateful to you Sir for sanctioning this study on "Utility of novel coated platelets as a marker for early prognostication of neurocognitive impairment following traumatic brain injury" | D. O. No SR/CSRI/203/20]

The sanctioned for the project entails a Research officer and a Lab technician. Research Officer is recruited to carry out the extensive sampling/ & detection of various laboratory cognition related markers.

Requirement of clinical psychologists is so important to carry out the study. A psychologist is utmost important to carry out neuropsychological assessment of the patients at recruitment and follow ups (14<sup>th</sup> day, 3 month), without whom we will not be able to successfully conduct and accomplish the proposed methodology.

In order to manage this within the sanctioned budget kindly permit us to recruit a clinical psychologists in the place of a lab technician. No additional funding will be required. We will manage this post with in the already allotted fund for the lab technician.

I am attaching the previous letters to DST concerning the same.

Please do the needful.

Yours Faithfully
