शल्य चिकित्सा विभाग/Deptt. of Surgical
अंसारी नगर, नई दिल्ली-29/Ansari Nagar, New Delhi-29

I certify that the item at Sr. No.1 above is required to be procured on single tender basis as the source of supply is definitely known/the specified brand proposed was advantages in meeting our functional requirements and limited tender system could be dispensed with as they would serve no useful purpose in this particular case.

(Strike our whichever is not applicable)

Specifications for Cordless Ultrasonic Dissection System

An ultrasonic dissection device should produce high frequency ultrasonic energy for soft tissue incisions where bleeding control and minimal thermal injury are desired. Utilization in surgical specialties (Laparoscopy) that include: General (including upper gastrointestinal), Bariatric, Colorectal, Gynecological and Urological procedures.

A. System should have following features:

- Complete Cordless design that improves freedom of movement (NO CORDs in sterile field)
- It should seals vessels up to 5 mm, provides faster dissection speed and reduces sealing time.
- Composed of single use and reusable components for maximum efficiency
- Simplified set up that increase O.R. efficiency; max 15 sec set up time
- Dual-mode energy hand switch button for enhanced procedural focus
- LED and sound feedback
- Hand activation control only
- FDA Approved.

B. System should have following components:

Components should include cordless generator & battery, ultrasonic dissector, battery charger.

1. **Reusable Cordless Generator** _____ 1 Qty
 - It should be reusable for up to 100 sterilization cycles
 - It should be cordless and should be directly connected to dissector
 - It should have Integrated LED that provides device feedback
2. **Reusable Cordless Battery** _____ 2 Qty
 - It should be Reusable for up to 100 sterilization cycles
 - It should be cordless and should be directly connected to dissector
 - It should be made of advanced lithium polymer chemistry
3. **Ultrasonic Dissector** _____ Box of 6 Qty
 - It should be of 5 mm diameter
 - It should have 39 cm shaft length
 - It should have 14.5 mm active straight blade
 - It should have dual-made energy button (minimum and maximum) hand activated.
4. **Battery Charger** _____ 1 Qty
 - It should have four charging bays
 - It should supports charging of 4 batteries simultaneously
5. **Sterilization Tray** _____ 1 Qty
