Item	Description	Qty	Unit Price	Total Price
60000	Animal Behaviour Monitoring Tracking & Analysis System ANY-maze Behaviour Tracking System with perpetual license and free updation of software version.	1	₹8,45,000	₹8,45,000
Subtotal				₹8,45,000
GST@18%				₹1,52,100
Total (FOR)				₹9,97,100

NOTE: The above prices include freight, custom duty and clearing charges
The price included one 30X Zoom camera with cable and one camera stand
No warranty on camera and camera stand

₹9,97,100

TERMS & CONDITIONS:-

1. Once order placed can not be cancelled.
2. GST and other applicable taxes are extra and will be charged as per prevailing rates.
3. Warranty is valid only if the product is used as per the operating instructions provided.

Animal Behavioral Monitoring, Tracking and Analysis System.

The system should have the following features:

- Camera-based activity monitoring system for small laboratory animals for the assessment of animal behaviour tests, including memory, anxiety, depression and other types of behaviour of the animal.
- The behaviour tracking system can able to work with multiple cameras (at least more than 10) and more than 30 behavioral apparatus simultaneously, i.e analogue, digital, FireWire, USB CMOS and webcam cameras.
- Should have facility for inbuilt individual user id and password creation to operate the software and also protect individual user created data.
- The system setup bundle should consist of video-tracking software with perpetual license with free software updates, one zoom camera with cable and one adjustable camera stand.
- Software should be meant for recording video files analysis, for recording of animal activity, events, social interaction and global activity with running of independent tests.
- It can track any animal in any mazes with an experimental protocol editing facility and re-adding the animals during an ongoing experimental protocol.
- The behaviour tracking software protocol should have the following options for selection like video source, apparatus, zones, ports, sequences, keys, switches, test settings & options, fields, stages, events & actions, calculations, analysis and result, report & data.
- The software should have the facility to create a password-protected individual user id and password which is inbuilt in the software without attaching any device or key and the individual saved data should also be password-protected.
- Should generate a report in graph, text, excel spread sheet, track and occupancy plotting (heat map) for centre, head and body separately with immobility and freezing episode count and also produce the value of standard deviations.

For General Marketing & Distribution Pvt. Ltd.
Sandip
Authorised Signatory

- Evidence of research publications (at least 10) in SCI/SCIE indexed journals with impact factor >5 using the video tracking software.
- Software should have the ability to track the animal's head, centre and tail and can also covered the animal with colour with animal movement orientation during animal behaviour tracking.
- It should have the facility for sequence setting to detect specific transitions of the animal with in the apparatus and also have the facility to identify specific location in the apparatus.
- System should automatically score over hundred different parameters like total distance absolute turn angle, total distance travelled by animal's head, animal body clockwise and anti-clockwise rotation, visited zone list, no of rearing episode, grooming of the animal and overall: distance, speed, direction, Zones: Latency to enter, time in, distance from. Mobility: Latencies, time mobile, mobile bouts, Sequences: Rotations, visit to zone in an order. Behaviour: Counts, duration, frequencies.

 **ANY-maze**
Behavioral Tracking Software **A Stoelting product**

Today's most advanced video tracking system!

Trusted by thousands of researchers around the world, ANY-maze couples an unrivalled depth of features with a simple, familiar design, to provide **automated testing in virtually any behavioural test.**

No costly extras

ANY-maze has no expensive add-on modules – you get the entire system for a single low price.

Unlimited support

All ANY-maze users enjoy free, unlimited access to our highly regarded support team, for ever.

Lifetime updates

New versions of ANY-maze are available for free to all users, for ever.

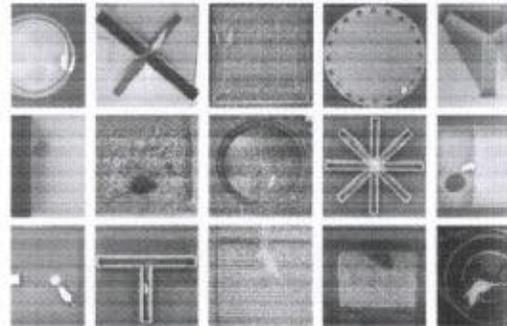

The key elements of ANY-maze

Here is an insight into the system's power, flexibility, and ease of use

1) Powerful tracking

Use literally any maze

- **Zones:** Draw shapes to divide your apparatus into areas, then combine areas to create any number of zones
- **Sequences:** Define sequences to detect movements between areas or zones
- **Immobility and freezing:** Automatically detect immobility and freezing, perfect for fear conditioning

Track with precision

- **Whole animal:** Use whole-animal tracking to precisely detect arm entries.
- **Three-point tracking:** Track the head, centre, and base of the tail to provide both location and orientation.
- **Accuracy:** Track accurately, even in poor light or low contrast, without setting any obscure parameters.

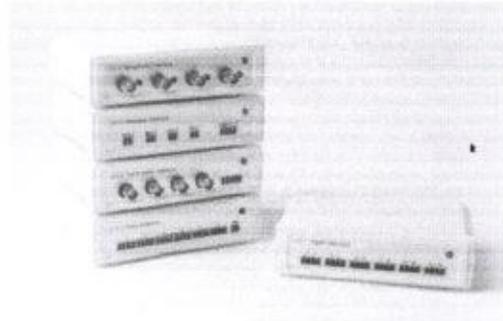

For Gentech Marketing & Distribution Pvt. Ltd.

Sandip
Authorised Signatory

2) Class-leading flexibility

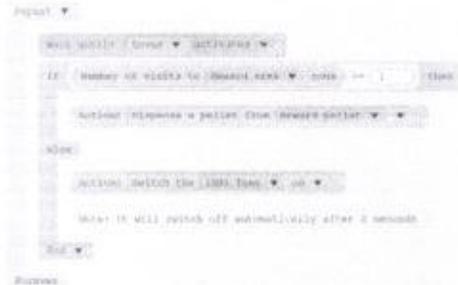

Connect to almost anything

- **Acquire:** Use purpose-built ANY-maze interfaces to acquire data from levers, photobeams, sensors, running wheels...
- **Control:** Also control speakers, pellet dispensers, optogenetic lasers, syringe pumps, shockers, lights...
- **Adjust:** Change shock intensity, alter tone frequency, set a laser's duty cycle... even while a test is being performed.

Easily design complex tests

- **Automate:** Use procedures, built from a few easily understood statements, to automate your tests.
- **Straightforward:** Procedures can be simple – for example ending the test if the animal finds a water-maze island.
- **Sophisticated:** Or they can incorporate complex rules for what should happen when, based on the animal's behaviour.

3) Smart experiment management

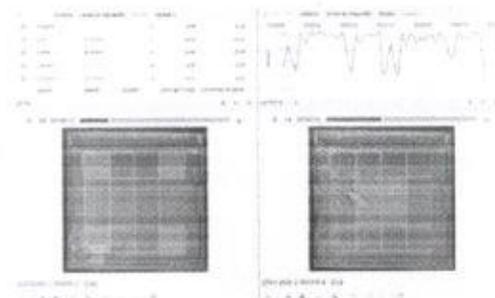

Follow an intuitive test schedule

- **Automatic:** ANY-maze automatically maintains a schedule showing the status of all the tests in your experiment.
- **Stages and trials:** Break an experiment into multiple stages containing repeated trials – for example, training and probe.
- **Stay in control:** The schedule is flexible – skip tests, retire animals, or just add tests as you go along.

Test	Animal	Stage	Trial	Apparatus	Testing status	Reason ended
1	1	Training	1	Barnes maze 1	Completed	Entered escape hole
2	4	Training	1	Barnes maze 4	Completed	Test duration
3	1	Training	1	Barnes maze 1	Completed	Test duration
4	1	Training	1	Barnes maze 3	Completed	Test duration
5	1	Training	1	Barnes maze 1	Ready	
6	1	Training	1	Barnes maze 2	Ready	
7	1	Training	1	Barnes maze 3	Ready	
8	1	Training	1	Barnes maze 4	Ready	
9	1	Training	1	Barnes maze 1	Ready	
10	1	Training	1	Barnes maze 2	Ready	
11	1	Training	1	Barnes maze 3	Ready	
12	1	Training	1	Barnes maze 4	Ready	
13	1	Training	2	Barnes maze 1	Ready	
14	2	Training	2	Barnes maze 2	Ready	

Benefit from flexible testing

- **High throughput:** Increase throughput by running independent tests in up to 40 apparatus simultaneously.
- **Live data:** View live information during tests, such as zone visits or the state of inputs and outputs.
- **Real-time warnings:** Have warnings, such as a dispenser running out of pellets, reported immediately and noted in the test's results.

Sanjay

4) Comprehensive analysis

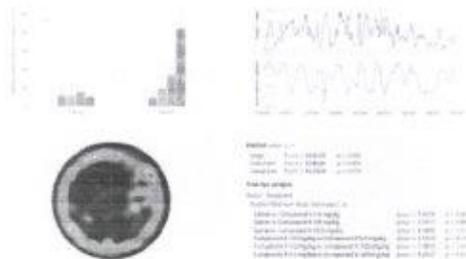

Access hundreds of measures

- **Extensive:** Results are available for the whole apparatus and for each zone, point, sequence, behaviour, input, and output.
- **Per zone:** Results are analysed for the entire apparatus and for each defined zone.
- **Across time:** Results are reported for the duration of the test, for equal length time-bins, and for any specific periods.

Visualise and analyse results

- **Visualise:** Visualise test results using track plots, heat maps and charts.
- **Analyse:** Analyse between treatments, strains, genders, trials, etc, using over 30 built-in parametric, non-parametric and post-hoc tests.
- **Transfer:** Copy and save data in a variety of formats for easy transfer to programs such as Excel, SPSS and Statistica.

Want to explore the software further?

Download ANY-maze for free

We offer a **30-day free trial** with the full capacity of a licensed version for you to perform some experiments and evaluate the software

All you have to do to avail of this offer is, download the trial version from our website. An ANY-maze representative will be in touch with you regarding the activation

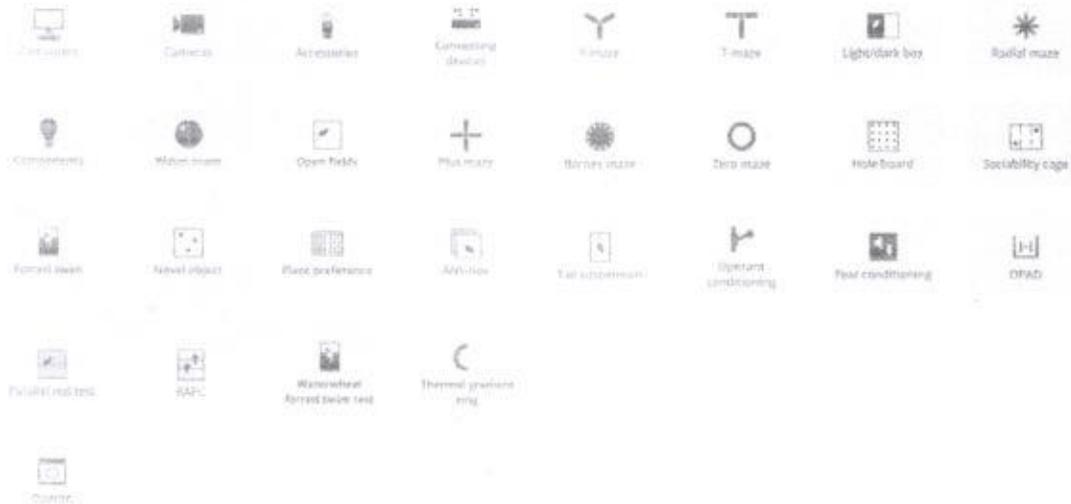

Or you can also request a free demo! Just drop an email to anymaze@stoeltingeurope.com and one of our representatives will contact you to organize a demo at mutual convenience.

General Terms And Condition

Sl.No.	Terms AND Conditions
1	Applicability - All the Terms & Conditions of the tender document/ our enquiry letter/ email shall be applicable to this Purchase Order.
2	Order Acceptance - The Digitally Signed / Ink Signed order acceptance must be submitted within 7 days from the date of Purchase Order.
3	Correspondence - Please quote our Purchase Order Number in all correspondence.
4	Modification of contract - No variation or modification of the terms of the contract shall be made except by written amendment.
5	Installation and Commissioning - The installation of the equipment/machinery/asset shall be done by the OEM certified engineers at consignee's location and a report must be signed by installation engineer and the consignee. The date of installation shall be the date for initiation of warranty period.
6	Invoicing - Invoices should contain firm's GST number and our Lab's/Instt's GST number correctly. Invoices without correct GST number will not be accepted for payment. Invoice should also contain P.O. Number, Bank Details (including Account No., Branch Name & Code, IFSC Code, Beneficiary Name etc.). Invoice must be submitted in triplicate.
7	Payment Terms I - 100% payment after delivery, installation and acceptance of the Stores. The payment shall be done through RTGS only. No cheque or cash payment shall be done.
8	Documents Required for Payment - The following documents are required by us at the time of payment (a) Four copies of the supplier's Invoice giving full details of the goods including quantity, size, weight, value etc; (b) Packing list if applicable (c) Manufacturer's guarantee/Warranty certificate if applicable. (d) User manual if applicable. (e) Inspection-cum-acceptance certificate. if applicable (f) Performance Security Deposit if applicable g) copy of the service report evidencing installation, testing, commissioning and training as applicable with start and end of date of warranty period if applicable
9	GST TDS - Applicable and will be recovered from the Invoice as per rule.
10	Deduction and Recoveries - GST TDS and IT TDS shall be deducted from the invoice wherever applicable. Please mention institute's PAN No. 19AAATC2716R3ZA for invoices above Rs. 2.0 Lakhs.
11	Part Delivery & Discrepancies - The Director, IICB reserves the right to accept the delivery in part or in full. Damaged and unaccepted supply will be returned to the vendor at vendor's risk and cost.
12	Responsibility - The responsibility lies with the Indian Agent, if any damage or loss to the property of the Institute occurs while undertaking the contract.
13	Risk Purchase Clause - If the Supplier fails to deliver the goods within the maximum delivery period specified in the Purchase Order, IICB may procure, upon such terms and in such a manner as it deems appropriate, Goods or Services similar to those undelivered and the Supplier be liable to IICB for any excess costs incurred for such similar Goods or Services.
14	Liquidated Damages (LD) - Timely supply is the essence of our contract. Our requirements have got direct bearing with time targeted research work. By any measure, if there is any delay in delivery of the ordered material(s). A sum equivalent to 0.5% (Half) percent of contract value for each week of delay or part thereof until actual delivery will be deducted from the contract value as liquidated damages, subject to the maximum deduction of 10% (ten) percent. Lab/Insttts. is at liberty to consider the termination of the contract subsequent to the attainment of maximum deduction.
