Care and Maintenance

All catheters include Groshong* PICC features

- **Valve Design** - reduces blood reflux and clotting
- **Three-Way Valve** - controls the flow of fluids for superior infusion therapy
- **Reduces Maintenance Costs** - weekly maintenance is reduced to a single saline flush
- **Allows for Clamp-Free Infusion Therapy** - eliminates confusion of clamping sequences

Single-Lumen Groshong* PICC

- **Proximally Trimmable** - customizes to individual patient's anatomy

Dual Lumen Groshong* NXT PICC

- **Enhanced Durability** - increases catheter strength
- **Equal-Sized Lumens** - enhances flow rates allowing for any type of fluid therapy in both lumens, from blood to antibiotic infusion
- **Reverse Taper Design** - strengthens the external portion of the catheter and tamponades bleeding at the insertion site

GeM Availability Report and Past Transaction Summary

GeM Availability Report and past transaction summary report is generated based on the specifications searched by the Buyer. The specification may be modified appropriately for searching relevant categories on GeM. Buyer may navigate to GeM category page by clicking on the category link to view category specifications and products/services available in the category.

Order Count and Order Value displayed is on a cumulative basis since GeM inception.

1. Search String: Groshong NXT PICC LINE 4 Fr

Search type: Product

Search Result: Category not available on GeM for the text string searched by the buyer.

This is a one-time requirement hence new category creation is not proposed / or requirement is recurring but request for new category creation will be submitted separately post generation of GeMARPTS.

2. Search String: Statlock Stabilization Device

Search type: Product

1. There are categories available on GeM matching your requirements (as listed here). You can create a bid on GeM with a product closest matching your required specifications and add additional parameters in specifications through Corrigendum using RMS functionality.
2. If you feel that category TP needs updating you can submit category updating request also through RMS.
3. If you do not want to use any of the above option and want to proceed for procurement outside GeM, please suggest the specifications of the required product for creation of new category on GeM for future procurement.

Search Result: Category available/suggested on GeM but marked as "not matching requirements" by the buyer with undertaking as under:

It is certified that I have thoroughly checked all probable categories suggested by GeM and I am satisfied that the product required is not covered / does not fall in any of the suggested categories and can not be procured under any of these categories even after inclusion of List of Values(LOV) wherever possible in category specifications of suggested categories. It is also certified that the technical specification requirement are such that these can not be covered even by adding specification parameters using ATC in any of the GeM suggested categories. This is a one-time requirement hence new category creation is not proposed / or requirement is recurring but request for new category creation will be submitted separately post generation of GeMARPTS.
