

ALL INDIA INSTITUTE OF MEDICAL SCIENCES
Department of Pediatrics, Mother & Child Block
ANSARI NAGAR, DELHI-110029

Date 27-10-2025

Subject: Proposal for procurement of LabConnect Software for Cytogenetic Laboratory for Genetic Unit at Department of Pediatrics, Mother & Child Block, AIIMS, New Delhi-110029 on PAC basis and invitation of comments/objections against such consumables if any, thereof.

The Division of Pediatric Genetics at Department of Pediatrics, Mother & Child Block, AIIMS, New Delhi is in the process of procuring of **LabConnect Software for Cytogenetic Laboratory** for Genetics Division at Department of Pediatrics at Mother & Child Block, AIIMS, New Delhi.

Therefore, this document is being uploaded for open information to all principal manufacturers or their authorized distributor with the intention to invite comments and/or objections with regards to the proprietary nature of the aforesaid product if any.

The comments/objections if any should be received in the office of the Stores Office, Room no. 817, 8th Floor, Department of Pediatrics, Mother & Child Block, AIIMS, Ansari Nagar, New Delhi - 110029 on or before **15/11/2025 up to 05.00 PM** with contact details, failing which it will be presumed that no other bidder/ manufacturer/vendor is having any comments/objection against the proposition and the case will be decided purely on merit.

The matter pertains to the approval of the competent authority within the Department of Pediatrics at AIIMS.

SALES QUOTATION

Quotation Number: QT-2025-10-LC-001

Quote Date: 16th October 2025

Products

S. No	Software Product
1	LabConnect • Cytogenetics Lab
	GST at 18%
	Total including GST

Terms & Conditions:

1. LabConnect software is a proprietary Laboratory Information Management System developed and marketed by Genetico Research & Diagnostics Private Limited (Genetico).
2. The Annual maintenance charge for 5 years is included in the quote.
3. Deployment of Cytogenetics module will be done within 60 business days from the date of receiving the Purchase Order.
4. Genetico will maintain the product and offer a two-year warranty with the purchase.
5. The quote also includes cost of 100 GB storage per year for 5 years. Additional storage can be purchased as needed.

GENETICO

Date – 29th September 2025

TO WHOMSOEVER IT MAY CONCERN

Technical Specifications of **LabConnect** (specialized **Laboratory Information Management System** for genetic testing labs):

1.	Integration with the Clinical Genetics Software of Genetico (CGS)
	LabConnect will be integrated with the CGS to send and receive the following information – • digital Test Requisition Form (dTRF) will be sent from CSG to LabConnect • Test report will be sent from LabConnect to the CGS • Various time-stamp parameters such as the date on which sample was drawn and received by the Cytogenetic Lab, Sample ID generated in LabConnect, etc.

2.	Refer Test from the CGS
	For every case, the clinician can order one or more tests from a list of tests that has been pre-configured in the CGS. Here, the priority (<i>Routine</i> or <i>Urgent</i>) can also be assigned for the sample by the clinician which will reflect in LabConnect.

3.	Generation of Test Requisition Form (dTRF) in the CGS
	The clinician can refer a test and a dTRF, which is autogenerated from specific sections within the Patient Case Editor, will be displayed to the referring clinician. A unique barcode will be generated with this dTRF.

hello@genetico.in

	Clinicians can assign priority of sample as <i>Routine</i> or <i>Urgent</i> which will be indicated in Sample tracking Dashboard and LabConnect. The Sample type (<i>Prenatal & Postnatal</i>) along with Salient Features and Clinical Indication can also be added here.
--	--

4.	Sample Tracking Dashboard in CGS
	In the Sample Tracking Dashboard, a Phlebotomist/ user can search for a patient which has been referred for a test by a clinician through the CGS. On clicking a record, the dTRF will open which will contain the barcode to be printed along with other patient details. The browser will have the following column headers – Name, PID, UHID, Sample ID, Sample Collection Date, Sample Received Date, Sample Priority, Test Name, Sample Status. User can print a barcode for the sample and paste it on the sample container.

5.	Sample Received Confirmation in LabConnect
	When a sample arrives at the lab, the user scans the barcode and perform the <i>Receive</i> action to confirm its arrival. This updates the status to <i>Sample Received</i> in Sample Tracking Dashboard in CGS as well on Sample Dashboard in LabConnect. If the bar code is not present, a LabConnect user can search the sample through the Patient ID, which will fetch the relevant patient details if the sample is referred from the CGS. A barcode is also generated, which can be placed on the slides.

6.	Sample Registration in LabConnect
	User can manually register a sample and add all relevant details for samples not referred from the CGS. This feature will also act as a fail-safe in the rare event if integration between CGS and LabConnect faces any

	issue due to technical issues or internet issues at the location where CGS is active.
--	---

7.	Report Uploading in LabConnect
	There will be a button to upload the report for a particular sample and a button to send the report to CGS. This report will then reflect in the Sample Tracking Dashboard and in the record of that patient in CGS.

8.	Sample Storage in LabConnect
	In the LabConnect, user can define <i>Sample Storage</i> options and assign that for each sample.

9.	Report Download
	Clinicians can download the reports in the CGS. The reports can also be downloaded by the lab team in LabConnect.

10.	Appointment System
	In the appointment module of CGS, a user can define available slots and assign appointments to patients based on the available slots.

Please feel to call +91-9599033045 or write to arjun@genetico.in for any query or concern.

Sincerely,

Arjun

CERTIFICATE OF RECOGNITION

Department for Promotion of Industry and Internal Trade

This is to certify that **GENETICO RESEARCH & DIAGNOSTICS PRIVATE LIMITED** incorporated/ registered as a **Private Limited Company** on **29-07-2019**, is recognized as a startup by the Department for Promotion of Industry and Internal Trade.

Date of Issue: **11-09-2019**

Place of Issue: **New Delhi**

The certificate shall only be valid for the entity:

- Up to ten years from the date of its incorporation/ registration and
- If its turnover for any of the financial years since incorporation/ registration has not exceeded Rs. 100 crores.

Note:

- **Authorities accepting this Certificate may check its validity on the Startup India portal (<https://www.startupindia.gov.in/>)**
- This certificate is not the Certificate issued by the Inter Ministerial Board and is NOT VALID for availing Tax benefits
- This is a system generated certificate and hence does not require physical signature
- If such recognition is found to have been obtained without uploading the relevant documents or on the basis of false information, DPIIT reserves the right to revoke the recognition certificate immediately without any prior notice or reason.

Subject: Price reasonability undertaking.

Date: 29th September 2025

Dear ma'am,

This letter is an undertaking that the prices quoted are reasonable and meet market standards. Our product **LabConnect**, a specialized Laboratory Information Management System for genetic testing labs, is very reasonably charged with host of critical and productivity enhancing features while offering custom integration with our proprietary Clinical Genetics Software which is used in Outpatient Departments for patient consultation. We believe that the price in our quotation is very reasonable for such specialized offerings.

Please feel to call +91-9599033045 or write to arjun@genetico.in for any query or concern.
