

**ALL INDIA INSTITUTE OF MEDICAL SCIENCES  
ANSARI NAGAR, NEW DELHI- 29  
STORES SECTION (DO)**

**Ref. No. 08/SO(DO)/Anesth/PAC/25-26/M&E**

**Date : 19.07.2025**

Sub: Purchase of **Cardiac Output Monitoring System – 02 nos.** for the Department of Anesthesiology, at AIIMS, New Delhi-110029, on proprietary basis inviting comments thereon.

\*\*\*\*\*

On specific requirement of Deptt.of Anesthesiology, Store Section (DO) is in the process of procurement of **Cardiac Output Monitoring System-02 nos.** from M/s. (Mfg. M/s. **Edwards lifesciences (India) Pvt. Ltd.**) through its authorized dealer M/s. **Arian Health Care** ). The principal M/s **Edwards lifesciences (India) Pvt. Ltd** has submitted following documents:

1. PAC format duly signed by Departmental TSEC (page No.1)
2. Technical Specification duly signed by Departmental TSEC (page No.2-3)
3. Performa Invoice from principle/authorized distributor M/s **Edwards lifesciences (India) Pvt. Ltd**, (p.no.4-8)
4. Warranty: 2 years (p.no.3)
5. CAMC Charges: 8 years (page 6)
6. Principle Proprietary Certificate (copy enclosed at p.no. 9)
7. GeMARPTS (page: 10-11)
8. Authorization to M/s. **Arian Health Care**. (Page: 12)
9. Non Black Listing Certificate (page no. 13-14)
10. Land boarder sharing certificate (page: 15)

Now, in view of the above, the said proposal is uploaded on AIIMS website for period of 15 days with the view to invite objections w.r.t. proprietary nature of the product from the OEC's or their authorized distributors. The comments/objections if any should be received in office of Sr.Store Officer, Store Section (DO), 1<sup>st</sup> Floor, Animal House Building, Near Biotechnology Building at AIIMS on or before 05.08.2025 upto 12:30 P.M. failing which it will be presumed that any other vendor is having no comment to offer and case will be decided on merits.

  
**Sr. STORES OFFICER (D.O)**

**ALL INDIA INSTITUTE OF MEDICAL SCIENCES  
ANSARI NAGAR, NEW DELHI – 110029.**

PROPRIETARY/SPECIFIC BRAND GOODS CERTIFICATE

1.	Item/Type/Model No. Required Along with specification	Cardiac Output Monitoring System
2.	If the item a spare part attachment or Accessory for existing equipment	No
3.	Name of the manufactures/suppliers of the item proposed by the indenter.	M/s Edwards Lifesciences LLC through their distributor M/s Arian Healthcare
4.	Are the sole manufactures/sole distributors of the item?	Proprietary certificate and authorization submitted by M/ s Edwards Lifesciences LLC
5.	It there any other item with similar/equipment specification available in the market to meet the job requirement envisaged. If he answer is yes, why the same can't procured	No
6.	What were the efforts made to locate alternative source of supply or use other substitutes.	The required items are proprietary and as certified by the manufacturer with certificate is attached
7.	Why open/limited tender can't be resorted to, for locating alternative source.	Proprietary item
8.	Are the proprietary items certifying that the rates are reasonable or not.	Yes
9.	Any other justification for procuring item from single source.	To ensure better patient care service. Advanced technologies

'We have assessed the market and we do hereby certify that Cardiac Output Monitoring System is a proprietary item of the manufacturer M/s Edwards Lifesciences LLC, USA and cannot be substituted with a similar item from other vendors for its intended use'.

Qty. 02 Approx Cost Rs. 1.32 Crore

Technical Specifications for Cardiac Output Monitoring System

- It should have a touch screen with an active area of 12.1 inches.
- It should be able to provide Continuous Cardiac Output through a dedicated arterial sensor only when connected with a dedicated cable available separately.
- It should be able to give Continuous Cardiac Output, Stroke Volume (SV), Stroke Volume Index (SVI), Stroke Volume Variation, and Systemic Vascular Resistance (SVR) and Systemic Vascular Resistance Index (SVRI) when used with appropriate arterial line sensor.
- It should have the option of giving Intermittent & Continuous Cardiac Output (ICO & CCO), Continuous Right Ventricular Ejection Fraction (RVEF), Continuous Right Ventricular End Diastolic Value (RVEDV, RVEDVI), Systemic Vascular Resistance (SVR, SVRI) & Pulmonary Vascular Resistance(PVR) when used with appropriate Swan Ganz Catheter or dedicated oximetry catheter. (OPTIONAL)
- It should have the option of providing intravascular oximetry parameter for pediatric population i.e Central Venous Oximetry updated every 2 secs when used with dedicated disposable central venous catheter.
- It should have the option to be scalable to Non-invasive Cardiac Output technology in the future.
- It should have display capacity of at least 4 trend lines and 4 numerical display, optional physiology and physio-relationship screen.
- It should have the option of providing dedicated per operative goal-directed therapy (PGDT) screens and analytics.
- It should be equipped to provide patient insight for hypotension & fluid challenge response.
- It should be equipped with a secondary screen to provide clinicians with insights into potential factors for high hypotension probability.
- The monitor must display additional parameter of dP/dt and Eadyn when using a dedicated disposable A-line sensor.
- It should work on NIRS (Near-infrared Reflectance Spectroscopy) technology.
- It should be able to provide tissue oxygen saturation (StO<sub>2</sub>), non-invasively when used with Hemo Sphere advanced monitor.
- It should be able to measure oxygen saturation of the cerebral tissue along with other tissues such as abdomen, hip, arms, and feet when used at appropriate tissue site.
- It should have 1 light emitter and 2 light detectors and, 2.5 cm depth of light penetration and use 5 Near-Infrared wavelengths for better accuracy of StO<sub>2</sub> measurement.
- It should be available in 4 sizes namely: Small, Medium, Large (Adult) and one special Non adhesive variant for neonates.
- It should have option of wired communication.
- It should have display capacity of at least 4 trend lines and 4 numerical display, optional physiology and physio-relationship screen.

- It should have the option of providing dedicated per operative goal-directed therapy (PGDT) screens and analytics.
- It should have the option of connectivity with hospital information system.
- It must save data for at least 72 hours.
- Must have screen shot and data download facility through any USB stick.
- It should have an HDMI, USB & ETHERNET port for various connectivity.
- The comprehensive warranty will be 2 years (including all spares and labour) from the date of satisfactory installation of the equipment.
- Rates for Comprehensive Annual Maintenance Contract (including all spares and labour for 3<sup>rd</sup> to 10<sup>th</sup> year, after expiry of warranty period must also be quoted. Cost of spares, accessories and consumables should assure the supply of new consumables, if required.

**GeM Availability Report and Past Transaction Summary**

GeM Availability Report and past transaction summary report is generated based on the specifications searched by the Buyer. The specification may be modified appropriately for searching relevant categories on GeM. Buyer may navigate to GeM category page by clicking on the category link to view category specifications and products/services available in the category.

Order Count and Order Value displayed is on a cumulative basis since GeM Inception.

**1. Search String: Cardiac Output Monitoring System**

Search type: Product

1. There are categories available on GeM matching your requirements (as listed here). You can create a bid on GeM with a product closest matching your required specifications and add additional parameters in specifications through Corrigendum using RMS functionality.
2. If you feel that category TP needs updating you can submit category updating request also through RMS.
3. If you do not want to use any of the above option and want to proceed for procurement outside GeM, please suggest the specifications of the required product for creation of new category on GeM for future procurement.

Search Result: Category available/suggested on GeM but marked as "not matching requirements" by the buyer with undertaking as under

*It is certified that i have thoroughly checked all probable categories suggested by GeM and I am satisfied that the product required is not covered / does not fall in any of the suggested categories and can not be procured under any of these categories even after inclusion of List of Values( LOV) wherever possible in category specifications of suggested categories. It is also certified that the technical specification requirement are such that these can not be covered even by adding specification parameters using ATC in any of the GeM suggested categories. This is a one-time requirement hence new category creation is not proposed / or requirement is recurring but request for new category creation will be submitted separately post generation of GeMARPTS.*
