## PROPRIETARY/SPECIFIC BRAND GOODS CERTIFICATE

1.	Item/Type/Model No. Required along with specification.	Diluent(B36845), Lyse(B36846), Cleaner(B36868), Control(B36872) and Calibrator(B36880) for DxH500 Haematology analyser
2.	Is the Item a spare part attachment or accessory for an existing equipment?	Reagents to run the said analyzer.
3.	Name of manufactures supplier of the item proposed by the indenter.	Beckman coulter (BSP diagnostic pvt. Ltd.
4.	Are the sole manufactures/sole distributors of the item?	OEM (Certificate provided by the firm).
5.	Is there any other item with similar/equivalent specification available in the market to meet the job requirement envisaged? If the answer is yes, why the same can not be procured. Demanding Officer should bring out comparative functional advantage/cost effectiveness of the recommended item from these offered by other.	This equipment is a closed system. The consumables requested are elemental to run the analyser.
6.	What were the efforts made to locate alternative source of supply or use other substitutes.	Undertaking taken from the OEM in this regard, also gathered information through internet.
7.	Why open/limited tender cannot be resorted to, for locating alternative source.	The firm is sole proprietor.
8.	Are the proprietary item certifying that the rates are reasonable or not.	Documents provided.
9.	Any other justification for procuring item from single source.	This equipment is a close system. The reagent manufactured by original equipment manufacturer, are only compatible with the system. The use of other brands will lead to deviation and effect the accuracy of the results.

I certify that the item at Sr.No. 1 above are required to be procured on single tender basis as the source of supply is definitely known the specified brand proposed was advantages in meeting our functional requirement and tender system could not be dispensed with as they would serve no useful purpose in the particular case.

### GeM Availability Report and Past Transaction Summary

GeM Availability Report and past transaction summary report is generated based on the specifications searched by the Buyer. The specification may be modified appropriately for searching relevant categories on GeM. Buyer may navigate to GeM category page by clicking on the category link to view category specifications and products/services available in the category.

*Order Count and Order Value displayed is on a cumulative basis since GeM inception.*

#### 1. Search String: DxH control

Search type: Product

1. There are categories available on GeM matching your requirements (as listed here). You can create a bid on GeM with a product closest matching your required specifications and add additional parameters in specifications through Corrigendum using RMS functionality.
2. If you feel that category TP needs updating you can submit category updating request also through RMS.
3. If you do not want to use any of the above option and want to proceed for procurement outside GeM, please suggest the specifications of the required product for creation of new category on GeM for future procurement.

Search Result: Category available/suggested on GeM but marked as "not matching requirements" by the buyer with undertaking as under:

*It is certified that I have thoroughly checked all probable categories suggested by GeM and I am satisfied that the product required is not covered / does not fall in any of the suggested categories and can not be procured under any of these categories even after inclusion of List of Values ( LOV) wherever possible in category specifications of suggested categories. It is also certified that the technical specification requirement are such that these can not be covered even by adding specification parameters using ATC in any of the GeM suggested categories. This is a one-time requirement hence new category creation is not proposed / or requirement is recurring but request for new category creation will be submitted separately post generation of GeMARPTS.*
