Subject: Certification of Pre-Operatory Spare Parts for Astral 150

Spare Parts Included for Pre-Operatory Use:

The following spare parts are certified and approved for use with ResMed's Astral 150 ventilator. These parts meet ResMed's quality and compatibility standards and are essential for maintaining the device's optimal performance and safety:

1. Main PCB (Astral 100/150):

- ResMed Part Code: 29052 / 19653
- Description: The main printed circuit board responsible for device control and functionality.

2. Pneumatic Block:

- ResMed Part Code: 19623
- Description: A critical component that ensures accurate air delivery and flow management.

3. Top Case Assembly:

- ResMed Part Code: 19606
- Description: The top case assembly integrates the outer protective casing and the touch screen interface. This component is critical for user interaction, housing the device controls, and protecting internal electronic components from physical and environmental damage.

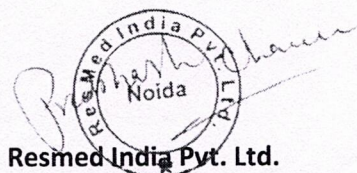

4. Chassis:

- ResMed Part Code: 19605
- Description: The base framework supporting all internal and external device components.

Certification Statement:

This is to certify that the spare parts listed above are genuine ResMed components, verified for compatibility with the **Astral 150** and **Astral 100** models. These parts are designed to ensure device reliability, enhance performance, and maintain compliance with ResMed's manufacturing standards.

For optimal device functionality and patient safety, it is recommended that installation and servicing be carried out by trained professionals at an authorized ResMed service center.
